ADMIRAL DECLARES WAR'S FOOD DEMAND SHELLS ARE OF BEST

"Navy shells are subjected to every test known to humanity," said Rear Admiral Ralph Earle, chief of the Bureau of Ordnance, yesterday.
"We have a lower percentage of shell accidents than Great Britain, Germany

or Japan. That is part of the record." or Japan. That is part of the record."

Admiral Earle was speaking apropos of the accident on the steamer Mongolia, which, he said, was not due to a defective shell, but to the brass cup which surrounds it tearing loose. An editorial appearing in The Washington Herald attributed negligence or inefficiency to the navy authorities in permitting defective appropriation to be asset on the second. ammunition to be used on the armed negligence was in any way responsible for the accident.

Quotes the Record.

"Our official statement tells the whole story," he said. "Nothing is being con-cealed from the public. We had no rea-son to suspect that anything was wrong. We are striving all the time to turn out perfect shells, and we have made as

"It is impossible that any enemy agent, any traitor, could have tampered with the shells; navy precautions are entirely sufficient. The shells in question were thoroughly tested in 1898, and they are just as good as if they had been put up in 1917. We know that only two out of eighty-seven burst when subject to extremely high pressure in the tests-pressure much higher than they get in actual sure much higher than they get in actual firing. A shell does not deteriorate with age; therefore we do not scrap them or

scrap powder.
"We have accidents, of course. They are unavoidable. But our record, com-pared to other navies, is of the highest."

The Washington Herald had no inten-tion of reflecting on Admiral Earle or any other officer of the Ordnance Bureau, although it did attempt to point out the dange: of permitting the confi-dence of the public in the American navy to be undermined by a seris of accidents such as have already occurred on the St. Paul, the St. Louis and the Mongolia.

Some Facts Withheld. The facts regarding the St. Louis and the St. Paul were not published for several weeks after they were known to the erai weeks after they were known to the newspapers, for the reason that the Navy Department requested that they be with held. Now that they are made public, the public is in an interrogating mood. Naturally, the layman, the mar. street, does not take the technical, the expert, view of these accidents; he judges

WEST MISUNDERSTANDS WILSON, SAYS LEWIS WILL TAX U. S. HARD

Says Navy Neglects No Tests Tending One Billion Bushels of Grain Will Be Senator Says Red Cross Speech Has Unortunate Effect.

Required.

Reports on crop conditions abroad, issued yesterday by the Department of Agriculture, indicate that the United States and Canada will be heavily taxed to meet the food recuirements of our allies. The report, from the International Institute of Agriculture, Rome, gives the condition on May 1 of growing cereals as good in Tunis, average in Spain, the Netherlands and Algeria, and medicore in France. Great Britain, Italy and Switzerland.

It was estimated that our allies will require 1.000,000,000 bushels of grain from outside sources before this builtein was it received from Rome. It is probable that this total will be increased, and indications now, including the United States and Canada, are that crops here will not furnish more than 60 per cent of this 1,000,000,000.

The area sown in most of the countries from which reports have been received in Rome is larger, in most cases, than last year and for the five-year period in 1915.

TALLAN FAVOVE HEDE

Unortunate Effect.

That Red Cross speech of President wilsom is circulated. Senator Lewis, of Ullinois, told the Senate yesterday. At the same time, President Wilson vrots to Representative Pou, of North Carolina, explaining that the speech had been "insincerely" misquoted.

The liberty loan and the conscription law will both be hampered if the wrong impression is circulated concerning the speech, said Senator Lewis.

"This misunderstanding concerning the speech is prevailing too generally," said he, and read a pamphlet circulated in Illinois, attacking the speech. "If the West really believes what is in this pamphlet, there will be great difficulty in obtaining its sons and its funds to fight this war.

"The idea is being spread that the President said we had 'no grievance' against Germany. In the West they are asking 'why should we give our children, our money, why should we bank-rupt the future, if we have no grievance. He merely said that America has no grievance. He merely said that America has no grievance.

much progress in this direction as any havy in the world.
